My Job & Project Costing can't:

- Tell how my jobs are going
- Find the specs, drawings and quotes
- Get control of my sub-contractors
- Prepare quotes quickly enough
- Manage variations
- Keep across our more complex projects

My Distribution can't:

- Put my prices in the computer
- Find the right stock in a hurry
- Report sales the way I want
- Track my sales to batches, lots or use-by-dates
- Get stock levels right
- Control optional product configurations
- Print picking slips or delivery dockets
- Use my suppliers' electronic catalogues

My Manufacturing can't:

- Get purchasing and inventory to match manufacturing needs
- Schedule and still avoid late deliveries
- Make the plan work without expediting
- Let me run the business from my desk
- Get my product costs right

My Service can't:

- Measure profitability of a contract
- Get Preventative Maintenance schedules right
- Be confident that every maintenance invoice is raised
- Easily track my technicians and jobs
- Put SLA's into the computer
- Recall service history easily

With Epitome software I can!
